HOW TO

Tie a bow tie

IF YOU'RE IN A RUSH GO FOR PRE-TIED BUT WHEN IT'S A BIG EVENT YOU'RE DRESSING FOR ONLY THE BEST, THING YOU'LL DO: UNDO IT AT THE END OF THE NIGHT, AND LET IT HANG FOR EXTRA RATTY-STYLE POINTS.

Project Checklist

Chandeliers & Pendants Calculations

Ceiling heights & Space Designs

Plans or pictures are welcome.

QUOTATION CHECK-LIST PENDANT LIGHTS & CHANDELIERS

For the chandeliers and suspensions ranges, the flexibility and the freedom to install our lights, brings to the designer a great part of creativity. We need for that, to collect information to set up the size of the suspension at the perfect dimension.

In the data sheets available on our website and also in the catalog, you will find suggestions of sizes depending on the ceiling height. Our team is helping the client to choose the right model or size depending on the height of the ceiling, the diameter requested, the headroom. Please collect information to help us define the appropriate lengths of cords and cables and calculate the corresponding budget. For projects orders, products are not sent without receipt of these information...! The setting-up of cord's lengths in our workshop is included in the price but the addition of lengths if any, is in supplement.

Check-list to be sent to the sales service : contact@designheure.com
